

ORDERING LUNCH

How to order your lunch through the canteen

Order through QKR

Download the QKR app to your device and set up an account for your child/ren. For more information on using the app, go to our school website, parent information, canteen menu app.

Orders via the app must be completed by 8:30pm the night prior.

Order with cash in bag

The traditional method of cash in a paper bag can be used to order lunch on the same day of requiring lunch. Your child will place the order into their class lunch bag on arrival to school. Please ensure you are ordering from the most up to date canteen menu to ensure prices are correct. This can be accessed via skoolbag or BPS website.

Orders must be in by 9:30am.

Missed Orders

If using the cash in bag method, and a child forgets to put their order in by 9:30, the canteen is unable to process the order. Parents will be notified by phone by office staff and can either bring their child lunch, or the school will provide the child with a sandwich. The order will be sent home with the child.

Missing items & substitutes

If your child is missing an item from their lunch order, they need to let front office staff know. Office staff will then contact the canteen to rectify the issue.

Only 1 ice block per order.

When an item is out of stock, a similar item will be substituted.

Missing or incorrect money

When completing a cash in bag order, please ensure you are ordering from the most up to date menu (find it on skoolbag and our website). If not enough money has been placed in the bag for the order, items will not be provided or a cheaper option will be substituted.

Canteen

Parents are not permitted to enter the High School grounds and order lunches at the canteen. All lunch orders must be made either via the QKR app or via the cash in bag procedures.

If you have any issues with ordering, please contact our office staff on 85685329.
